

POTATO SHOOTER

- Lengths and Diameters can be changed
- Buy the Cheapest Aerosol Hairspray Available...brand doesn't matter...seriously, bottom of the shelf
- Hairspray seems to work better than Ether, Starting Fluid, and WD 40 because it's not as wet and mixes well with air
- The 5" x 1 1/2" throttle section can also be split. Then put thread-on adapters on each end so it's a two piece collapsable unit
